The Stageline® SL 100
The only compact, all aluminum, lightweight
mobile unit that meets any and
every staging need

STAGELINE® SL 100

SET-UP TIME 45 MINUTES

Three easy steps and the stage is ready for your event. The Stageline SL 100 is the fastest and most user-friendly lightweight mobile staging equipment available anywhere.

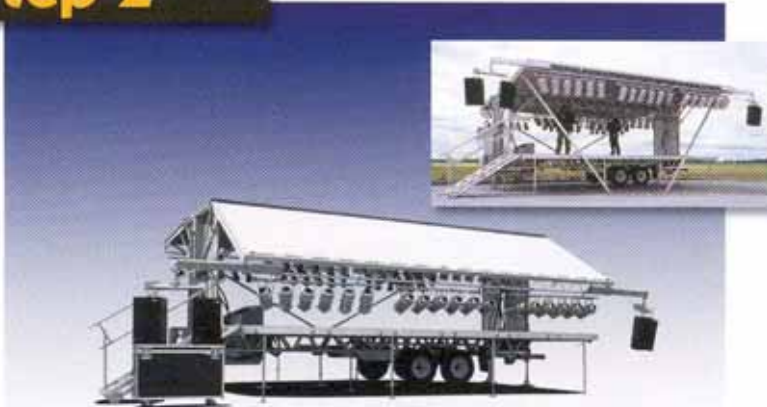

Step 1

Step 1

Level the trailer and lower the floor panels. Easy, all hydraulic operations.

Step 2

Step 2

Install your sound and lighting equipment at ground level. Attach up to 3,800 lbs to standard 2" tube trussing in roof. (1 725 kg to 50 mm tubing)

Step 3

Step 3

Raise the roof using the hydraulic double mast lifting mechanism.

"When you're doing shows in a different city each day, or sometimes even two cities in a day, you don't have time for slow set-ups or mechanical difficulties. Our Stageline unit was perfect for the Olympic Torch Relay - absolutely reliable, even under the most demanding circumstances."

Harold Richter, President
Richter Scale Productions/Olympic Torch Relay, Denver, CO

IT'S SHOW TIME

*"Our SL100 is awesome!
We know we made the right choice in Stageline."*

*Terrie Cardoza, Operations Supervisor
City of North Las Vegas*

DESIGNER AND MANUFACTURER OF THE WORLD'S MOST ADVANCED MOBILE STAGES

With thousands of successful events in more than 20 countries each year, Stageline mobile stages are recognized as the most reliable and durable equipment on the market.

Stageline equipment are the result of the integration of five technologies: transportation, hydraulics, structural and mechanical engineering and scenic technology. This innovative product is now used as a reference in the industry.

Besides scenic applications, Stageline equipment can also become podiums, exhibit rooms, VIP suites, screen supports, etc.

Your imagination sets the limits.
